August 2013 – Present // Jacksonville | ICS/RF-SMART | UX Designer and Developer

Designing and preparing the graphics and navigation structure for a full range of inventory management applications and websites. ERP systems, such as Netsuite, AX 2012, and Oracle Cloud. // **Used:** *JQuery, HTML, CSS, Photoshop*

November 2013 – August 2013 // Jacksonville | Payspan | UX Designer and Developer

Designing and preparing the graphics and navigation structure for a new large-scope consumer app, launching early 2014.

Contract. // **Used:** *Javascript, JQuery, HTML, CSS, Photoshop, Sublime*

July 2013 – November 2013 // Jacksonville | Florida Blue/BCBS of Florida | UX Designer and Developer

Creating various wireframe/prototypes for the multiple applications used at FB. Also in charge of icon creation (and conversion to company-wide icon font), UI process and navigation flow redesign for 2014 site(s) redesign. Managed the UI experience between business units and consumer. **Contract.** // **Used:** *Javascript, JQuery, HTML, CSS, Photoshop, Sublime, etc.*

June 2012 – present // Jacksonville/Atlanta (remote) | Bleedingtree LLC. | Freelance/Consulting

My online “business as a freelance entity”. Design and development for small businesses, corporate environments, churches, and non-profits. Responsible for the concept, wireframe, graphic design, and coding – for each client. Online and email marketing, Google SEO, and social media awareness were also staples of each project. Primarily work within agile design agency environments. // **Used:** *Javascript, HTML, CSS, Photoshop, Fireworks, etc.*

August 2011 – June 2012 // Atlanta | First Baptist Church of Atlanta | Website Manager and Designer

Brought in to maintain and expand the FBA.org website and online presence. Responsible for interface, custom code, Wufoo form management integration, admin for Ministry Platform church management software, and future web-related projects. Daily duties varied from ministry interaction, to ideas for upcoming events and marketing materials, to SEO of the // **Used:** *Javascript, Joomla, jQuery, PHP, HTML/5, CSS/3, Mailchimp, Wufoo, Constant Contact, ZURB Foundation, Photoshop, Fireworks*

December 2007 – June 2011 // Jacksonville | First Baptist Church of Jacksonville | Website Manager and Designer

Full graphic work, coding, and CMS integration (ModX/Drupal). Managed and set up Extranet (using Open Atrium as the primary app), Project Management App (using ActiveCollab), and an online audio/video sermon streaming archive. Daily duties involved constant ministry and department interaction, email and online marketing, developing marketing materials for upcoming events, and maintaining the multiple sites under my care. // **Used:** *Javascript, Modx, jQuery, PHP, HTML/5, CSS/3, Mailchimp, Wufoo, Formstack, Flash, Photoshop, Fireworks, Flash*

December 2006 – June 2008 // Jacksonville | Winn-Dixie Stores | Website Manager and Designer

Website Manager for Winn-Dixie Stores. Brought in to overhaul the existing site, including streamlining with CSS and XHTML compliant guidelines. Managed and initiated email campaigns and online marketing ventures. Worked alongside the print and in-store marketing team, to develop new ways of leveraging our online presence, including customer surveys, email list creation, and promotional giveaways. Note: Worked as a consultant for the last 6 months. // **Used:** *Javascript, Shoplocal, Jquery, HTML, CSS, Mailchimp, Photoshop, Fireworks, Flash*

April 2005 - December 2006 // Jacksonville | Discovertec | Lead Web Designer

Focused on both HTML/XHTML/CSS and interactive Flash projects. Daily client interaction, site/project storyboards and comps, complete style guide development, and complete site/project design. Worked alongside several other programmers and project manager, but not in an agile workflow. // **Used:** *Javascript, HTML, CSS, Flash, Photoshop, Fireworks, Flash*

August 2000 – April 2005 // Atlanta | In Touch Ministries | Web/Flash Designer

One of the largest ministry organizations in the world. Based in Atlanta, GA, with Dr. Charles Stanley as the head and founder. Responsible for producing teen-focused flash sites, interactive CD-ROMS, and other online elements. // **Used:** *Javascript, HTML, CSS, Flash, Photoshop, Fireworks, Flash*

Education: Bachelor of Arts, University of North Florida
